The Jacuzzi® Brand

The relentless motivation that drives Jacuzzi® brand forward is simple - to create wellbeing products that improve people's mental and physical state.

From the founding days of the brand in the 1940s, Jacuzzi® products are now manufactured in three continents and enjoyed by users across more than 100 countries.

By employing thousands of people around the world, and representing decades of innovation, design, performance and ease of use, we've earned the trust of millions, globally.

Heritage

The story of the Jacuzzi® brand began with a father's unwavering love for his son.

In the 1940s, Candido Jacuzzi's toddler son, Ken, developed rheumatoid arthritis. Driven with a purpose to help relieve his pain, Candido invented a hydrotherapy pump for the family bathtub.

The invention, known as the J-300™ pump proved a success.

Once the first sale of the pump was made in the 1950s, the industry for at-home hydrotherapy was brought to life.

Thriving and flourishing more than 65 years later, the Jacuzzi® brand continues to propel the industry forward with the caring mindset the J-300™ pump was built on.

1900s

The Jacuzzi family departs Italy for the United States and transforms the aviation and agriculture industries.

1940s

When Ken was diagnosed with rheumatoid arthritis, his father, Candido, invented a portable hydrotherapy pump. It was placed in the family bathtub to provide pain relieving hydrotherapy. This pump is known as the J-300™.

1950s

The J-300™ pump was presented on national daytime television show Queen for a Day. Boasting 20 million viewers, the Jacuzzi® brand became an overnight sensation.

Present

The Jacuzzi® brand has been awarded more than 700 patents and the number continues to rise. This is a result of continual breakthroughs in jet engineering, design and technology innovations.

Future

The Jacuzzi® brand continues to develop products that have a positive impact on people's health and wellbeing. Jacuzzi® maintains the position of industry leader and the most recognised hot tub brand in the world.

Infrared Therapy

Jacuzzi® is the first and only brand to offer Infrared and Red Light therapy across a range of wellness products, from hot tubs, to swim spas, to saunas. Premiering in the PowerPro™ and PowerActive™ collections, The FX-IR seat combines patented Infrared and Red Light therapy with hydromassage for unmatched rejuvenation.

The therapeutic benefits of hydrotherapy.

The rejuvenating power of Infrared.

The regenerative qualities of Red Light therapy.

All working together deep beneath the skin's surface.

Rejuvenation Meets Relaxation

The rejuvenating powers of Infrared and Red Light therapy work together deep beneath the skin's surface to relieve pain, improve range of motion, and reach a state of mindfulness.

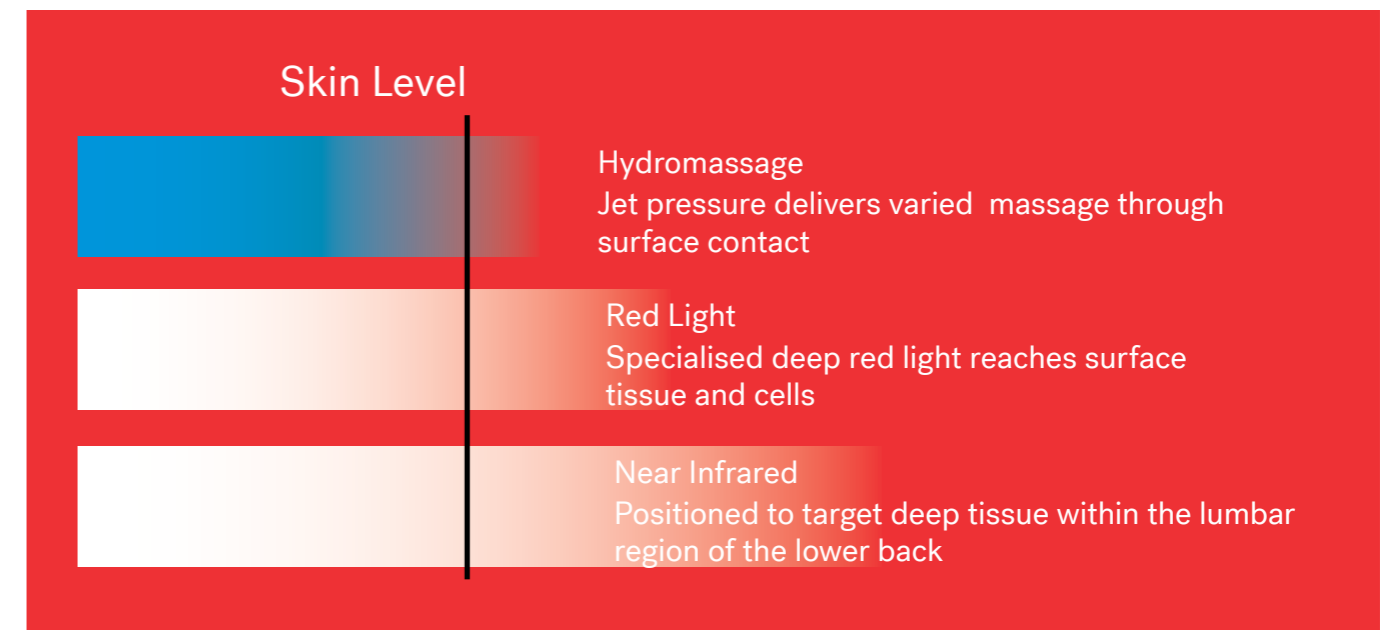

Effortless

Only Jacuzzi® offers the joys and benefits of hydrotherapy, Infrared and Red Light therapy, effortlessly ready when you are.

Peace of Mind

Founded in research, you can be confident using Infrared and Red Light therapy to enhance your relaxation.

Why Infrared and Red Light therapy is a game changer

As the pioneers of home hydromassage for over 65 years, Jacuzzi® continues to set the industry standard with groundbreaking innovations. We proudly introduce the exclusive combination of patent-pending Infrared and Red Light therapy in our hot tubs and swim spas, an exclusive feature you won't find anywhere else. Embrace the authenticity and quality that only Jacuzzi® can deliver.

Experience ultimate pain relief from Infrared therapy, a breakthrough method that specifically targets lower back issues. With an astounding 619 million people suffering from lower back pain (According to the World Health Organisation), Jacuzzi® understands the global struggle and has designed the FX therapy seat to solely focus on alleviating this chronic discomfort.

Harnessing the power of Near Infrared (NIR) technology, which is FDA-approved as a medical device, this innovative treatment has been clinically proven to promote healing when used consistently. Your SmartTub® allows you to effortlessly control and monitor a daily 20-minute pre-programmed session, ensuring you receive the perfect amount of therapeutic care. Research supports the notion that shorter, frequent cycles are the most effective for pain relief.

Introducing Jacuzzi® Swim Spa

Searching for ultimate flexibility between fitness, fun and relaxation that's right on your doorstep?

A Jacuzzi® Swim Spa could be the answer.

A swim spa is a hybrid of common features found in a swimming pool and a hot tub. As the name suggests, this means you can be ultra-active, spend time with family and friends, or simply relax.

Imagine swimming against the resistance of a smooth and controlled current, splashing about or simply unwinding with hydrotherapy.

From the moment you remove the cover, reap the benefits of a Jacuzzi® Swim Spa that bring joy and wellness to your life.

Jacuzzi® Ambassadors

Jacuzzi® is serious about wellbeing. All of our products are designed with the aim of improving people's lives and ultimately, helping them relax, recover and reconnect.

We have a long history of partnering with ambassadors who recognise the value our products can bring to everyday lives.

Our swim spas add a new dimension to traditional Jacuzzi® product experiences with the option for fitness and training. Our ambassadors have a wide variety of uses for their swim spas, from teaching their children to swim, through to training to win Olympic and Paralympic Gold.

ADAM PEATY
Olympic Gold Medalist and World Record Holder - GB Swimming.

KIMBERLEY MORRISON
Triathlete and Ironman Champion.

JESSICA-JANE APPLGATE
Paralympic Champion - GB Swimming.

ROSS EGLEY
Athlete, ultra-marathon sea swimmer and author.

SALLY GUNNELL
Olympic Gold Medalist - Athletics.

KIMBERLEY WALSH
Singer & TV Personality.

Partnering with Adam Peaty

As one of the best breaststroke swimmers to ever grace the pool, his legacy is still being written.

Adam Peaty is the first British swimmer to defend an Olympic title, repeatedly earn top spot on the world stage and has a knack of breaking world records 'for fun'.

His attitude towards training, performance and recovery is second to none.

In 2020, Jacuzzi® loaned several British swimmers a swim spa each to allow them to continue training for the Olympics during lockdown. Adam Peaty was one of those swimmers and he's since described the swim spa as a great contribution to his success in Tokyo.

Welcoming Adam to the team as a proud ambassador became the natural next step.

Adam's 100M Breaststroke World Records

- 58.18 2015 World Championships, Kazan.
- 57.92 2015 British Championships (First person to swim under 58 seconds).
- 57.13 2016 Olympics, Rio de Janeiro.
- 57.79 2017 British Championships.
- 57.47 2017 World Championships, Budapest.
- 57.10 2018 European Championships, Glasgow.
- 56.88 2019 World Championships, Gwangju.

Adam's Medals

- 3 x Olympic Gold Medals.
- 2 x Olympic Silver Medals.
- 4 x Commonwealth Games Gold Medals.
- 3 x Commonwealth Games Silver Medals.
- 8 x World Championship Gold Medals.
- 16 x European Championship Gold Medals.

Precision Swim

The latest aquatic technology and Jacuzzi® PowerPro® jets work together to produce an elite, high-performance swim experience.

Balanced Swim Jets

Swim jets produce a consistent flow of water at variable intensity levels. This means you can swim against the resistance of the swim jets and maintain a central position in the swim spa.

Reflective Hips

The unique shell design incorporates the shape of hips. This prevents reflective waves creating turbulence in the swim channel.

Predictable Current

Suctions near the back of the swim spa pull the flow of water. This creates a consistent current.

Stay Elevated with the Buoyancy Jet

The SteadySwim™ buoyancy jet helps elevate you into a natural swimming position.

Therapy

As well as being used to swim or train, Jacuzzi® Swim Spas also feature our renowned hydromassage seats.

To ensure you experience an optimal massage, our swim spas are engineered with the average measurements of 90% of the population in mind.

Jets & Seats

Jacuzzi® Swim Spas feature four seats that are designed to follow the natural contours of the body.

Adjustable pillows and recessed PowerPro™ jets allow you to sit back and treat your body to a premium hydromassage.

Each jet is calibrated to deliver the perfect balance of air and water. The seats are designed with the exact pump-to-jet ratio to ensure optimum hydromassage. This is known as our Aqualibrium® formula.

RX Jet Therapy Seat

The spinning sensation created by the RX jet provides comforting relief to the back and neck. This seat delivers the highest performing hydromassage that Jacuzzi® Swim Spas offer.

FX Therapy Seat (including Infrared and Red Light therapy)

Alleviating swimmer's soreness in the neck, shoulders and back, this full coverage massage seat produces a deep, adjustable stream of spiraling air and water and combines near Infrared and deep Red Light therapy on the lumbar back region.

Clean Water

CLEARRAY Active Oxygen™ technology harnesses ozone and UV-C technology to provide a hands-free approach to water care. CLEARRAY Active Oxygen™ System works harder to clean the water longer.

Exclusive to Jacuzzi® products, the advanced oxidation process involves the use of injected ozone gas and a UV-C bulb. Once the ozone is generated, it destroys contaminants and waterborne pathogens.

What does this mean?

- Reduce swim spa chemical usage by up to 50%.
- Save money on maintenance products.
- Soak in water that contains less chemicals.
- Kinder to your skin.

UV-C SYSTEM

We're proud to feature nature-inspired technology that neutralises pathogens.

Works with traditional chlorine or bromine sanitiser, better for sensitive skin.

The same technology is used in bottled drinking water, aquariums and hospitals.

Up to 6-Stage Filtration Process*

STAGE
1

CLEARRAY Active Oxygen™ uses power of air and light to reduce chemical usage and destroy water contaminants and pathogens.

STAGE
2&3

The surface skimming and ProCatch™ bag work together to clean the surface, while trapping large debris for easy removal.

STAGE
4

The ProClear® filter operates with the swim spa's hydromassage pump. It removes small and large particles to maintain the cleanest water.

STAGE
5

The ProStream™ circulation pump pulls the water through a ProClear® filter. It clarifies the water, even when the jets are not running.

STAGE
6

The ProClarity® filter on the ProStream™ circulation pump catches tiny debris and particles that other filters miss. This helps ensure clean, sparkling water.

CLEARRAY
ACTIVE OXYGEN™
CLEAN WATER SYSTEM

Quality

Our Jacuzzi® Engineering Teams are constantly innovating.

We're creating swim spas that are energy efficient and use the best, most sustainable materials available.

For you, this means relaxing in a quality product that will provide you with many enjoyable years of rejuvenating hydrotherapy.

ProFusion™ Shell

Three layers of material for a strong, scratch-resistant shell.

Galvanised Steel Frame

Designed for durability and increased structural support.

ProLast™ Cover

Custom fit to lock in heat and improve energy efficiency and safety.

ProFinish™ Cabinetry

Stylish, durable, synthetic cabinetry.

Energy Efficient Insulation

Industry leading, multi-layered insulation that retains and recycles heat.

Pump to Jet Ratio

Precise pump to jet ratio for optimised water pressure in every seat.

PowerPro™ Jets

Hydromassage technology that's exclusive to Jacuzzi®.

Reflective Hips

Shell design prevents reflective waves for consistently smoother water.

SmartTub®

Control your swim, control from afar with SmartTub®

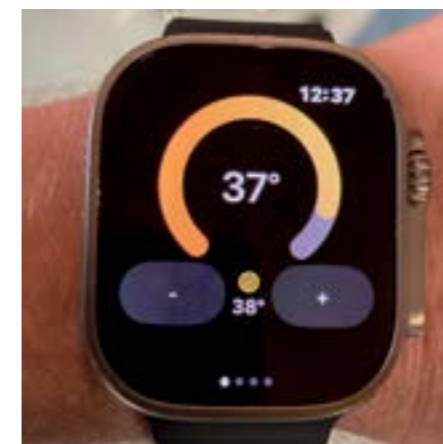

Customise your settings

- Remote control of pumps, lights, temperature, filtration, heating and more.
- Control your therapy, track usage and program filtration.
- Control the intensity of your swim by selecting one of 5 swim modes.
- 6 PowerTone™ videos included in new 'Workout' mode.
- Energy usage reports enable users to monitor kWh used and track off-peak and peak energy costs.

Peace of mind

- Power outage notifications will help limit wider issues created through loss of power.
- Time routine maintenance reminders will alert you when it's time to clean, replace filters and change the water.
- Seamless app to electronics system integration gives you more control options.

Easy to use

- Always connected to the best signal - either cellular or Wi-Fi connection, supported by Bluetooth technology.
- Activate your swim spa with smart home devices including, Amazon Alexa, Google Assistant™, Siri and Apple Watch.
- Connect one SmartTub® account to both a Jacuzzi® Swim Spa and Jacuzzi® Hot Tub.

SmartTub® system uses cellular-based communication and requires cell service from our provider partner in your area. See website for details.
*Requires subscription beginning in second year of ownership.

†Estimates are based on sensor readings and are not meant to match your utility measurements, see your local utility company for specifics to your local system.
Alexa, and all related marks are trademarks of Amazon.com, Inc. or its affiliates. Siri and Apple Watch are trademarks of Apple Inc., registered in the U.S. and other countries and regions.

A large outdoor Jacuzzi Swim Spa is the central focus, filled with clear blue water. It is situated on a grey stone patio. In the background, a smaller, similar spa is visible, partially covered by a dark cover. The setting is a well-maintained backyard with a green lawn, a wooden fence, and lush green trees and bushes under a bright sky.

The all-season pool

Jacuzzi® Swim Spas are engineered to be the most energy efficient swim spas in the world.

Offering the perfect alternative to a traditional swimming pool, swim spas have lower upfront costs, running costs and can be used all year round.

Dreaming of a swim spa that's a stand out feature?

Perhaps you want it to simply blend into your outdoor space?

You choose.

Jacuzzi® Swim Spas can be installed and enjoyed above or in-ground.

Smart Goggles

Introducing smart, wearable technology for your swim spa workout.

FORM smart swim goggles are designed exclusively for Jacuzzi® Swim Spas.

As you get in the zone, track and view your swimming results in real-time, on optical display.

You can also pair FORM smart goggles with a downloadable app to analyse results and customise your swimming routine.

The opportunity to become fitter and stronger in water is right before your eyes.

FORM Smart Swim Goggles

Wearable technology calibrated specifically for Jacuzzi® PowerPro™ and PowerActive™ Swim Spas.

Track and analyse results

- Optical display using smart technology.
- Real-time analytics on your optical display (Measure time, distance, pace, optional heart rate).
- Consistent feedback allows you to workout, without interruptions.

In-app Guidance

- Track stroke rate, calories, time, distance and workouts.
- Customise your swimming routine.
- Workout from the convenience of home.

Comprehensive fitness alternative

- Engage with other swimmers in the app.
- Share workouts and results on social.
- Use for swim and resistance training for all fitness levels.

*Optional extra on PowerPlay™ Collection. Standard on PowerPro™ and PowerActive™ collections.

Swim Spa Fitness

Building upper body strength through long intervals, this PowerTone™ Endurance workout gives you the opportunity to increase your max reps and work towards muscle fatigue. With a nice, long gentle warm-up, followed by 8, 2-minute sets, you will be sure to test your endurance in this signature PowerTone™ workout.

Jacuzzi® PowerTone Kit™ and Workout Series

PowerTone™ Core

With a focus on abs, glutes and back, the PowerTone™ Core workout utilises all of the equipment in your kit to build both strength and stability. Your goal is to bring awareness to the centre of your body, prioritising form over speed.

PowerTone™ Strength

With only six exercises to focus on, bring your awareness to how each movement feels as you build strength using water as resistance. Round one is not about moving quickly, but learning the motions and improving form. In round 2, the focus shifts to increased intensity, and 20 seconds of recovery is included between exercises.

PowerTone™ Circuit

A classic circuit with lots of variety, this total body experience will leave you wondering how 20 minutes went by so fast! Moving quickly from exercise to exercise, have fun while enjoying this two-lap workout. Make sure you give yourself a few minutes to warm up before you begin.

PowerTone™ Functional

Created to mimic the movements of everyday life, this functional workout brings speed into round one, and endurance into round two. With the 30-second interval to start, you will be challenged to push your pace. In round two, see if you can double your reps.

PowerTone™ Tabata

Will push that VO2 Max, and leave you feeling breathless. This workout is 4 rounds of 10 exercises in a 20 seconds on/10 seconds rest format. Grab your PowerTone™ bells and get ready!

PowerTone™ Endurance

Building upper body strength through long intervals, this PowerTone™ Endurance workout gives you the opportunity to increase your max reps and work towards muscle fatigue. With a nice, long gentle warm-up, followed by 8, 2-minute sets, you will be sure to test your endurance in this signature PowerTone™ workout.

POWERPRO™

PowerPro™

Swim Spa Collection

Indulge in an extraordinary swimming experience with our cutting-edge technology. The Jacuzzi® PowerPro™ Swim Spa collection offers the ultimate counter current swim, blending advanced aquatic technology with the healing power of Jacuzzi® PowerPro™ Jets and Infrared and Red Light therapy, delivering an industry-leading hydromassage experience.

Swim

- Adjustable PowerPro™ swim jets for every level, from beginners to triathletes.
- SteadySwim™ buoyancy jet elevates you into the proper body position to keep you aligned while swimming.
- An unprecedented four 3Hp pumps produce a powerful velocity of water for premium swim blade and hydrotherapy performance.
- Get real time analytics on your swim and track results with FORM Smart swimming goggles.
- The rejuvenating powers of Infrared and Red Light therapy work together deep beneath the skin's surface to relieve pain, improve range of motion, and reach a state of mindfulness.

Design

- A unique SmoothSwim™ shell design incorporates the shape of hips in the shell. This stops reflective waves and keeps you in your swim lane.
- Stunning, durable, synthetic cabinetry.
- Return suctions located at the opposite end of swim blades eliminates turbulence. This creates a swim system (similar to the workings of a conveyor belt) for a smoother swim.

Ease of Use

- Soft Stride mats allow you to enter and exit the swim spa safely.
- An at-a-glance status indicator light that changes colours when your swim spa needs attention.
- An exclusive swim selector control near the swim blades let you adjust your experience at the touch of a button, from swim current speed to preprogrammed workout mode.
- CLEARRAY Active Oxygen™ system: nature-inspired technology that neutralises pathogens for crystal clean water.
- The full colour ProTouch™ control uses touch screen technology for ease of use.
- 6-stage filtration - ensures water flow in your swim spa is enhanced, providing cleaner, more efficient water use, meaning your spa doesn't have to work as hard to maintain superior water purity.

Energy Efficient

- All of our swim spas incorporate dual layer insulation, making them the most energy efficient hot tubs in the market.
- SmartTub® allows the user to monitor and reduce energy usage.
- Heat pump ready - plumbed ready for heat pump installation with integrated control.
- ProLast™ cover is designed to perfectly fit your Jacuzzi® Swim Spa. UV, water, and stain resistant ProLast™ marine grade fabric means your cover lasts longer and maintains its box fresh look for longer.

PowerPro™

Swim Spa Collection

J-19™

Primarily designed for the fitness seeker, the Jacuzzi® PowerActive™ J-19™ delivers the most powerful water velocity and is the largest model in the collection, measuring 19ft. The Jacuzzi® PowerPro™ Swim Spa collection offers the ultimate counter current swim, blending advanced aquatic technology with the healing power of Jacuzzi® PowerPro™ Jets and patented Infrared and Red Light therapy, delivering an industry-leading hydromassage experience.

POWERPLAY™

PowerPlay™ Swim Spa Collection

Swim

- PowerPlay™ swim jets deliver a current that's perfect for an entry-level swim, or for aqua fitness.
- A mix of bench and hydromassage seats means you have multiple ways to relax or find relief with hydrotherapy.
- Two speed and single speed pumps work together to produce a velocity of water that's ideal for aquafitness, fun and hydrotherapy.
- CLEARRAY Active Oxygen™ system: nature-inspired technology that neutralises pathogens for crystal clean water.
- The full colour ProTouch™ control uses touch screen technology for ease of use
- 6-stage filtration - ensures water flow in your swim spa is enhanced, providing cleaner, more efficient water use, meaning your spa doesn't have to work as hard to maintain superior water purity.

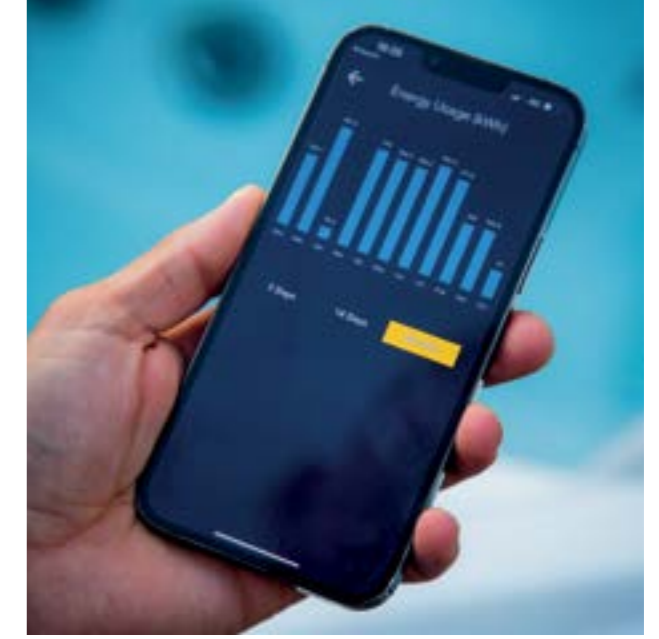

Design

- Stunning, durable, synthetic wood cabinetry.
- Return suction located at the opposite end of swim jets eliminate turbulence for a smoother swim.
- Open seating and swim area maximises space for family play and relaxing.

OPTIONAL FEATURES:

- Rowing kit.
- PowerTone™ fitness kit.
- Rollaway™ cover.
- SmartTub®.

The PowerPlay™ Collection is an excellent choice for those looking to engage in fitness, family fun, and exercise. Its PowerPro™ jets for soothing hydromassage and a predictable swim current that's ideal for both entry-level swim and fitness. Moreover, the spa offers nine seating options, including a mix of bench seats and hydromassage seats, to ensure you enjoy the full benefits of Jacuzzi® hydrotherapy. The spa features a consistent velocity of water thanks to one 3Hp 2-speed pump and two 3Hp single speed pumps, which ensures optimal performance during exercise, fun, and hydrotherapy. Get active and stay active with the PowerPlay™ Swim Spa!

Ease of Use

- Soft Stride mats allow for no-slip aquatic exercise.
- Indicator light changes colour when your swim spa needs attention.
- Simple to use topside control lets you adjust the power of the swim jets and customise your hydromassage.

Energy Efficient

- All of our swim spas incorporate dual layer insulation, making them the most energy efficient swim spas in the market.

Optional Upgrades

Rollaway Cover

Light, energy-efficient, and easy to use, the next generation of swim spa cover creates a complete seal and can be operated by one person in less than 60 seconds.

Available as an optional upgrade on all models.

Easy to use

25% lighter than other rolling spa covers.

Single-person operation

One person can uncover the swim spa in less than 60 seconds.

Durable design

Double-stitched, waterproof, and weather-resistant fabric with non-collapsible supports.

SmartTub®

Customise your settings and monitor energy usage all remotely using Wi-Fi or cellular. Also access Powertone™ fitness videos in the 'Workout mode' section. SmartTub® is standard on PowerPro™ and PowerActive™, and an optional extra on Powerplay™.

PowerTone™

An optional upgrade on PowerPlay™ swim spas with a focus on abs, glutes and back, the PowerTone™ Core workout utilises all of the equipment in your kit to build both strength and stability. Your goal is to bring awareness to the centre of your body, prioritising form over speed.

Heat Pump

All Jacuzzi® swim spas are built with heat pump ready plumbing. Our recommended heat pump which will fully integrate with swim spas controls is climate zone by Balboa.

Summer Cover With Tie Downs

Keep your swim spa warm and ready for use, prevent unwanted debris, and conserve energy with a secure floating cover with tie downs. To be used in conjunction with the Alaskan safety cover.

Fitness upgrade - Aqua-Rowing Kit

Achieve the full rowing motion using the kit's stainless steel oars and rubber bands. This aqua-rowing kit provides an excellent upper body and abdominal workout.

Fitness upgrade - 48" Exercise Bars

Optional upgrade on all models, the addition of this wall mounted option allows you to use the swim spa for any form of rehabilitation work. You can also use the bar for balance and incorporate it into aquatic fitness programs.

Jacuzzi® AR Configurator

Design and configure your Jacuzzi® swim spa and see how it looks in your garden space with your configurations. No more guesswork!
